Working Experience

Student – BA Digital Product (Mechelen, Belgium)

September 2023 - present

- Currently in the second year of a BA in Digital Product, specialising in computer science, software development, and UX/UI design. Completed academic projects using HTML5, TypeScript, JavaScript, React, Vue, Next.js, Python, and Unity 3D. Building strong foundations in full-stack development, agile workflows, API integration, and human-centred design.

Cloud Solutions Specialist at GlobalDots (London, UK)

March 2020 - August 2023

- Supported the planning and delivery of cloud-based performance and security solutions across the EMEA region, including CDN, WAF, DDoS protection, and DevOps tooling. Gained practical knowledge of content delivery networks, edge computing, cloud security protocols, and modern SaaS deployment practices.

Tech PR Associate at Blonde 2.0, IOTA (Tel Aviv & Berlin)

November 2018 - March 2020

- Wrote tech articles and pitched press releases in Chinese and English, cultivated relationships with the influential professionals. Partnered with Volkswagen, DnB, Bosch.

Community Moderator at Kik Interactive, Inc. (Waterloo, Canada)

September 2016 - November 2018

- Managed media campaign and live support for Chinese customers and community for the Kin TDE (ICO raising nearly \$100M - Pantera Capital)
